 Full-Stack Web Development Certification,

GUVI - IIT Madras

2018-2022

 B.E. Mechanical Engineering, Government College of Engineering, Salem

CGPA: 8.55

CERTIFICATE

Full Stack Course Completion Certificate, **GUVI - IIT Madras**

SUMMARY

Passionate Full-Stack Developer with hands-on experience in building web applications using the MERN stack. Completed Full-Stack Web Development certification from GUVI - IIT Madras. Motivated by challenges, continuously learning new technologies, and committed to contributing to innovative projects in collaborative team environments.

PROJECT EXPERIENCE

1. Cricket Website – *HTML5, CSS3*

• Built a responsive website featuring team profiles and IPL updates (**Situation & Task**)
• Designed a clean UI using HTML/CSS with Flexbox layouts (**Action**), resulting in smooth cross-device performance (**Result**)

2. Todo Application – *React (Vite), JavaScript, HTML5, CSS3*

• Created a task management app for organizing daily activities (**Situation & Task**)
• Implemented add, edit, delete, and filter features using reusable components (**Action**), improving task tracking efficiency (**Result**)

3. Cutoff Calculator – *React.js, Bootstrap 5*

• Developed a cutoff calculator with profile-based input for students (**Situation & Task**)
• Integrated React Router and a responsive Bootstrap UI (**Action**), enabling users to easily assess academic eligibility (**Result**)

4. Food Delivery App – *MERN Stack*

• Designed a scalable food delivery platform with secure authentication and real-time order tracking (**Situation & Task**)
• Built RESTful APIs and a responsive frontend using Redux and JWT (**Action**), ensuring seamless order placement and management (**Result**)

5. Movie Ticket Booking App – *MERN Stack*

• Built a full-stack ticket booking system with seat selection, city/theatre filters, and admin controls (**Situation & Task**)
• Implemented JWT, Google OAuth, and dynamic seat availability APIs (**Action**), resulting in a secure, seamless, and scalable booking experience (**Result**)
